

Air Valet acquires Florida based air/vacuum company

We are pleased to announce that Air Valet has purchased a small, Florida based, regional air/vacuum company on March 31, 2011. This acquisition adds approximately 270 machines, concentrated primarily in central Florida. This acquisition continues to strengthen AV's national presence and enhances our exposure in the Florida region. We look forward to the continued success of our management team in the expansion of this important division of the CSC family of companies.
